

By the Numbers 1234567

Indy Parks Greenways is expanding! Today, the Greenway System is comprised of more than

59

miles of trails.

The oldest trail was created in

1836

and is known as the Central Canal Towpath.

When complete, the Greenway System will have more than

200

miles of trails in Marion County with an estimated

2,000,000

user visits annually. Additionally, more than

12,000

acres of open space, park land, conservation greenspace and destinations will be connected through the Indianapolis Greenway System.

LIVE. LEARN. EXPLORE.

Indy Parks Greenways TRAIL USER'S GUIDE

Thanks for stopping by!

The Indy Parks Greenways are here for you to enjoy. Indy Parks & Recreation is dedicated to improving our beautiful parks and greenways and offering many educational and recreational opportunities to Indianapolis residents and visitors.

Greenways:

Offer opportunities for recreation and fitness;

Protect important wildlife habitat and promote open space and wetland conservation;

Link neighborhoods with each other, parks and other community assets;

Promote economic development; and

Make Indianapolis a desirable place to live, work and play.

Visit www.indyparks.org/greenways for more information!

Greenways... Then & Now

The urban core of Indianapolis' Greenway System is more than 100 years old! The popularity of greenways as linear parks and transportation corridors has increased exponentially in recent years because of health issues and rising energy costs.

In the early 1900s...

Thousands of people moved to the city for employment, bringing with them unregulated development and air and water pollution. The city's business leaders recognized they needed an economic development plan to guide Indianapolis into a world-class city. They hired city planning genius George E. Kessler to design the Indianapolis Park & Boulevard System. The plan included many of the parks and greenways we enjoy today.

Today...

More than 3,400 acres of our park & boulevard system are on the National Register of Historic Places as a Historic District – the largest ever listed.

INDIANAPOLIS, IND

Conservation Corridors

With the help of surrounding landowners and neighborhoods, these corridors can one day become nature trails. These corridors – generally along a water course – have been identified as environmentally significant. Indy Parks works to protect these corridors through acquisition, conservation easements and public education.

Buck Creek Corridor

Length: 11.5 miles
Location: Hancock County Line south to Johnson County Line

Crooked Creek Corridor

Length: 11.2 miles
Location: 96th Street south to 38th Street

Grassy Creek Corridor

Length: 6.8 miles
Location: I-70 south to Buck Creek

Indian Creek Corridor

Length: 7.5 miles
Location: Carroll Road northwest to Fall Creek

Mud Creek Corridor

Length: 4.4 miles
Location: 96th Street southwest to Fall Creek

White Lick Creek Corridor

Length: 6.8 miles
Location: Raceway Road southeast to Indianapolis Airport Property, west to Hendricks County Line

RULES OF THE GREENWAYS

Trail hours: Dawn to dusk, seven days a week.

SAFETY GUIDELINES:

Keep to the right and communicate before passing.

Let other trail users know you are approaching from behind by saying "passing on your left" and give others time to respond.

Maintain control and safe speed.

Adjust speed for other users, traffic and trail conditions.

Pedestrians have the right-of-way.

Bicycle riders and rollerbladers yield to all other trail users.

Share the trail and be courteous.

Respect all trail users, regardless of their mode of travel. Do not trespass or cut through private property.

Stop for cross traffic and obey signage.

Respect the trail environment.

Do not disturb wildlife or plants that grow along the trails. Pick up litter.

Keep pets on short leashes and remove pet waste.

Wear proper safety equipment such as helmets and reflective gear.

IN AN EMERGENCY CALL 911.

Report non-emergency concerns to Indy Park Rangers at 327-7140.

Report unsafe trail conditions at 327-7431.
